

SUBJECT INDEX

- | | | | |
|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|-------------------------------------------------------------------------------------------------------------------------------------------|-----|
| Abortion. Long-term sequelae following legally induced — | 61 | Betamethasone. Pulmonary oedema following treatment with ritodrine and — in preterm labour | 99 |
| Absorption. Pteroyl polyglutamate hydrolase and the intestinal — of folate polyglutamates ... | 205 | Bleeding. The — tendency in Greenland Eskimos | 202 |
| Acidemia. Declamping — in major vascular surgery | 274 | Blood pressure. Effect of smoking cessation on heart rate and — at rest and during exercise | 96 |
| Ageing. Experimental studies of premature — .. | 248 | Breast-feeding. — in Copenhagen, 1938-1977. Data on more than 365,000 infants | 42 |
| Aldosterone. Plasma — regulation in anephric and non-nephrectomized patients on regular haemodialysis. A survey | 22 | Capture. Immediate reactions to — and deportation | 217 |
| Allograft. The validity of gammacamera scintigraphy in the diagnosis of renal — rejection | 48 | Carbonic anhydrase. — isoenzyme B in erythrocytes of hyperthyroid, pregnant and oestrogen-treated subjects | 109 |
| Anephric. Plasma aldosterone regulation in — and non-nephrectomized patients on regular haemodialysis. A survey | 22 | Cardiovascular. HDL-cholesterol and ischaemic — disease in the Copenhagen city heart study | 139 |
| Angiography. Ischaemic lesion of the left ventricle. The correlation between echo- and — | 159 | Cerebral. Hair lead concentration in children with minimal — dysfunction | 259 |
| Aortic. Late results after replacement of the — valve by the Lillehei-Kaster disc valve. Significance of preoperative pulmonary hypertension | 155 | Cerebral dysfunction. Hair lead concentration in children with minimal — | 259 |
| Aortic valve. Late results after replacement of the — by the Lillehei-Kaster disc valve. Significance of preoperative pulmonary hypertension | 155 | Chest. — pain, risk factors and coronary artery disease | 148 |
| Arterial hypertension. Changes in glomerular filtration rate during long-term treatment with propranolol and peripheral vasodilators in patients with — | 168 | Children and torture. — An investigation of Chilean immigrant children in Denmark | 238 |
| Atenolol. Haemodynamic changes during treatment of arterial hypertension with — | 153 | Chilean. Children and torture. An investigation of — immigrant children in Denmark | 238 |
| Atherosclerosis. Platelets and —. A review on the role of platelets in atherosclerosis with special reference to the role of polyunsaturated 20 carbon fatty acids | 253 | Chromatid. Modified method for demonstrating sister — exchange (SCE) | 35 |
| Automated. Aspects of — chromosome analysis. Different representations of banded human chromosomes and their cytogenetic evaluation | 1 | Chromatid. Sister — exchanges in human lymphocytes exposed to nickel and lead. Preliminary communication | 40 |
| Automated chromosome analysis. Aspects of — Different representations of banded human chromosomes and their cytogenetic evaluation | 1 | Chromatid. Sister — exchanges in lymphocytes treated with metronidazole. Preliminary communication | 38 |
| Bacterial. — infections after renal transplantation. Relationship between pre-transplant bacterial culture and post-transplant infection | 266 | Chromosome. Aspects of automated — analysis. Different representations of banded human chromosomes and their cytogenetic evaluation | 1 |
| Bacteriuria. Asymptomatic — in elderly subjects | 101 | Chromosomes. Aspects of automated chromosome analysis. Different representations of banded human — and their cytogenetic evaluation | 1 |
| | | Compensation. — and rehabilitation of victims of torture. An example of preventive psychiatry | 245 |
| | | Concentration camp survivors. Jewish — in the post-war world | 232 |
| | | Concentration camp syndrome. The — syndrome | 224 |

Contractility. Classical concentration-response relationship between serum digoxin level and — indices	287	Haemodialysis. Plasma aldosterone regulation in anephric and non-nephrectomized patients on regular —. A survey	22
Coronary artery. Chest pain, risk factors and — disease	148	Hair lead. — concentration in children with minimal cerebral dysfunction	259
Coronary artery. ST-junction and ST-segment changes and — disease	142	Health services. Utilisation of — by 40-year old men and women in the Glostrup area, Denmark	130
Coronary artery disease. The clinical diagnosis of ischaemic heart disease due to —	280	Health structure. The — of 40-year old men and women in the Glostrup area, Denmark — an epidemiological survey	121
Cytogenetic. Aspects of automated chromosome analysis. Different representations of banded human chromosomes and their — evaluation	1	Haemodynamic. — changes during treatment of arterial hypertension with atenolol	153
Declamping. — acidemia in major vascular surgery	274	Heart rate. Effect of smoking cessation on — and blood pressure at rest and during exercise	96
Deportation. Immediate reactions to capture and —	217	Hepatobiliary. — scintigraphy with ^{99m} Tc-labelled diethyl acetanilide iminodiacetic acid in the differential diagnosis of jaundice	278
Dialysis. Iron status in patients undergoing regular peritoneal —	291	HLA-cholesterol. — and ischaemic cardiovascular disease in the Copenhagen city heart study	139
Digoxin. Classical concentration-response relationship between serum — level and contractility indices	287	Hostages. Psychological sequelae in — and the aftercare	239
Echo. Ischaemic lesion of the left ventricle. The correlation between — and angiography ...	159	Hypertension. Haemodynamic changes during treatment of arterial — with atenolol	153
Epilepsy. Studies on the occurrence of guanidino compounds in serum and urine of patients with — and patients with Spielmeier-Vogt-Batten's syndrome	207	Hypertension. Changes in glomerular filtration rate during long-term treatment with propranolol and peripheral vasodilators in patients with arterial —	168
Erythrocytes. Carbonic anhydrase isoenzyme B in — of hyperthyroid, pregnant and oestrogen-treated subjects	109	Hyperthyroid. Carbonic anhydrase isoenzyme B in erythrocytes of —, pregnant and oestrogen-treated subjects	109
Filtration. Changes in glomerular — rate during long-term treatment with propranolol and peripheral vasodilators in patients with arterial hypertension	168	Immigrant. Children and torture. An investigation of Chilean — children in Denmark	138
Folate. Pteroyl polyglutamate hydrolase and the intestinal absorption of — polyglutamates ..	205	Induced abortion. Long-term sequelae following legally —	61
Forty-year-old. The health structure of — men and women in the Glostrup area, Denmark — an epidemiological survey	121	Infantile. — spasms in siblings	272
Forty-year-old. Utilisation of health services by — men and women in the Glostrup area, Denmark	130	Infarction. The determinants of the duration of admission delay in acute myocardial —	51
Gammacamera. The validity of — scintigraphy in the diagnosis of renal allograft rejection	48	Inhumanity. The many faces of — and the few faces of its psychic and somatic sequelae ...	213
Glomerular. Changes in — filtration rate during long-term treatment with propranolol and peripheral vasodilators in patients with arterial hypertension	168	Insulin. — receptors in man. The monocyte as model for insulin receptor studies	173
Gonadal. — and sexual functions in tortured Greek men	243	Intestinal. Pteroyl polyglutamate hydrolase and the — absorption of folate polyglutamates	205
Greek. Gonadal and sexual functions in tortured — men	243	Intestino-gastric. Some aspects of — reflux	185
Greenland Eskimos. The bleeding tendency in —	202	Intestino-gastric reflux. Some aspects of —	185
Guanidino. Studies on the occurrence of — compounds in serum and urine of patients with epilepsy and patients with Spielmeier-Vogt-Batten's syndrome	207	Iron. — status in patients undergoing regular peritoneal dialysis	291
Guanidino compounds. Studies on the occurrence of — in serum and urine of patients with epilepsy and patients with Spielmeier-Vogt-Batten's syndrome	207	Ischaemic. HDL-cholesterol and — cardiovascular disease in the Copenhagen city heart study	139
		Ischaemic. — lesion of the left ventricle. The correlation between echo- and angiocardio-graphy	159
		Ischaemic. The clinical diagnosis of — heart disease due to coronary artery disease	280
		Ischaemic heart disease. The clinical diagnosis of — due to coronary artery disease	280
		Isoenzyme B. Carbonic anhydrase — in erythrocytes of hyperthyroid, pregnant and oestrogen-treated subjects	109

Jaundice. Hepatobiliary scintigraphy with ^{99m} Tc-labelled diethyl acetanilide iminodiacetic acid in the differential diagnosis of —	278	Political persecution. The psychiatric effects in children and families of victims of — and torture	229
Jewish. — concentration camp survivors in the postwar world	232	Polyglutamates. Pteroyl polyglutamate hydrolase and the intestinal absorption of folate —	205
Lead. Does smoking influence the — body burden in workers?	55	Polyunsaturated. Platelets and atherosclerosis. A review on the role of platelets in atherosclerosis with special reference to the role of — 20 carbon fatty acids	253
Lead. Hair — concentration in children with minimal cerebral dysfunction	259	Pregnant. Carbonic anhydrase isoenzyme B in erythrocytes of hyperthyroid, — and oestrogen-treated subjects	109
Lead. Sister chromatid exchanges in human lymphocytes exposed to nickel and —. Preliminary communication	40	Premature. Experimental studies of — ageing	248
Lillehei-Kaster. Late results after replacement of the aortic valve by the — disc valve. Significance of preoperative pulmonary hypertension	155	Premature ageing. Experimental studies of —	248
Long-term sequelae. — following legally induced abortion	61	Preoperative. Late results after replacement of the aortic valve by the Lillehei-Kaster disc valve. Significance of — pulmonary hypertension	155
Lymphocytes. Sister chromatid exchanges in — treated with metronidazole. Preliminary communication	38	Preterm labour. Pulmonary oedema following treatment with ritodrine and betamethasone in —	99
Lymphocytes. Sister chromatid exchanges in human — exposed to nickel and lead. Preliminary communication	40	Preventive psychiatry. Compensation and rehabilitation of victims of torture. An example of—	245
Medullary. Screening for familial — thyroid carcinoma	262	Prognosis. Evaluation of —	167
Methotrexate. — therapy of psoriasis. Effect and side effects with particular reference to hepatic changes. A survey	74	Propranolol. Changes in glomerular filtration rate during long-term treatment with — and peripheral vasodilators in patients with arterial hypertension	168
Metronidazole. Sister chromatid exchanges in lymphocytes treated with —. Preliminary communication	38	Pruritus. — and xerosis in patients with chronic renal failure	269
Monocyte. Insulin receptors in man. The — as model for insulin receptor studies	173	Psychological sequelae. — in hostages and after-care	239
Myocardial. Autopsy findings regarding clinically diagnosed acute — infarction	113	Pteroyl polyglutamate hydrolase. — and the intestinal absorption of folate polyglutamates	205
Myocardial. The determinants of the duration of admission delay in acute — infarction	51	Psoriasis. Methotrexate therapy of —. Effect and side effects with particular reference to hepatic changes. A survey	74
Myocardial. Verapamil in acute — infarction	105	Pulmonary. Late results after replacement of the aortic valve by the Lillehei-Kaster disc valve. Significance of preoperative — hypertension	155
Myocardial infarction. Autopsy findings regarding clinically diagnosed acute —	113	Pulmonary hypertension. Late results after replacement of the aortic valve by the Lillehei-Kaster disc valve. Significance of preoperative —	155
Nickel. Sister chromatid exchanges in human lymphocytes exposed to — and lead. Preliminary communication	40	Pulmonary oedema. — following treatment with ritodrine and betamethasone in preterm labour	99
Non-nephrectomized. Plasma aldosterone regulation on anephric and — patients in regular haemodialysis. A survey	22	Pyloroplasty. The clinical results of selective vagotomy and — six to nine years later	164
Oestrogen-treated. Carbonic anhydrase isoenzyme B in erythrocytes of hyperthyroid, pregnant and — subjects	109	Reflux. Some aspects of intestino-gastric —	185
Peritoneal. Iron status in patients undergoing regular — dialysis	291	Rehabilitation. Compensation and — of victims of torture. An example of preventive psychiatry	245
Physical sequelae. Documentation of —	215	Renal allograft rejection. The validity of gammacamera scintigraphy in the diagnosis of —	48
Platelets. — and atherosclerosis. A review on the role of platelets in atherosclerosis with special reference to the role of polyunsaturated 20 carbon fatty acids	253	Renal failure. Pruritus and xerosis in patients with chronic —	269
		Renal transplantation. Bacterial infections after —. Relationship between pre-transplant bacterial culture and post-transplant infection	266
		Risk factors. Chest pain, — and coronary artery disease	148
		Ritodrine. Pulmonary oedema following treatment with — and betamethasone in preterm labour	99

Scintigraphy. Hepatobiliary — with ^{99m} Tc-labeled diethyl acetanilide iminodiacetic acid in the differential diagnosis of jaundice	278	Torture. Compensation and rehabilitation of victims of —. An example of preventive psychiatry	245
Scintigraphy. The validity of gammacamera — in the diagnosis of renal allograft rejection	48	Torture. Evaluation of investigation of 200 — victims	241
Screening. — for familial medullary thyroid carcinoma	262	Torture. The psychiatric effects in children and families of victims of political persecution and —	229
Sexual. Gonadal and — functions in tortured Greek men	243	Torture victims. Evaluation of investigation of 200 —	241
Side effects. Methotrexate therapy of psoriasis. Effect and — with particular reference to hepatic changes. A survey	74	Tortured. Gonadal and sexual functions in — Greek men	243
Sister chromatid exchanges. — in human lymphocytes exposed to nickel and lead. Preliminary communication	40	Transplantation. Bacterial infections after renal —. Relationship between pre-transplant bacterial culture and post-transplant infection .	266
Sister chromatid exchanges. — in lymphocytes treated with metronidazole. Preliminary communication	38	Traumatization of children. Sequential —	235
Sister chromatid exchange. Modified method for demonstrating — (SCE)	35	Triiodothyronine. — (T ₃), thyroxine (T ₄), and thyrotropin (TSH) in childhood	58
Smoking. Effect of — cessation on heart rate and blood pressure at rest and during exercise ..	96	Vagotomy. The clinical results of selective — and pyloroplasty six to nine years later	164
Smoking. Does — influence the lead body burden in workers?	55	Vasodilators. Changes in glomerular filtration rate during long-term treatment with propranolol and peripheral — in patients with arterial hypertension	168
Somatic sequelae. The many faces of inhumanity — and the few faces of its psychic and — ...	213	Ventricle. Ischaemic lesion of the left —. The correlation between echo- and angiocardiology	159
Spasms. Infantile — in siblings	272	Verapamil in acute myocardial infarction	105
Spielmeyer-Vogt-Batten's syndrome. Studies on the occurrence of guanidino compounds in serum and urine of patients with epilepsy and patients with —	207	Victims. Compensation and rehabilitation of — of torture. An example of preventive psychiatry.	245
ST-junction. — and ST-segment changes and coronary artery disease	142	Victims. The psychiatric effects in children and families of — of political persecution and torture.	229
ST-segment. ST-junction and — changes and coronary artery disease	142	War sailor syndrome. The —	220
Survivors. Jewish concentration camp — in the postwar world	232	Xerosis. Pruritus and — in patients with chronic renal failure.	269
Syndrome. The concentration camp —	224		
Syndrome. The war sailor —	220		
Thyroid. Screening for familial medullary — carcinoma	262		
Thyroid carcinoma. Screening for familial medullary —	262		
Thyrotropin. Triiodothyronine (T ₃), thyroxine (T ₄) and — (TSH) in childhood	58		
Thyroxine. Triiodothyronine (T ₃), — (T ₄), and thyrotropin (TSH) in childhood	58		

SUPPLEMENT NO. 1, MAY 1980, PAGES 1-62

International Conference on Trends in Medical Education: Denmark and the United States in Recognition of the 500th Anniversary of Copenhagen University June 11-13, 1979.

INDEX OF AUTHORS

Aalen, O. O.	167	Bang, H. O.	202
Allodi, F.	229	Bartels, U.	291
Alstrup, P.	155	Beck-Nielsen, H.	173
Andersen, B. Thøner	96	Bentzen, A.	101
Andersen, K. E. Hemmeløff	48, 269	Berger, P.	215
Andersen, P. Klint	274	Berning, J.	159
Anker, N.	109	Biering-Sørensen, F.	42
Askevold, F.	220	Biering-Sørensen, K.	42

Buch, J.	287	Larsen, M. E.	167
Bøjholm, S.	96	Leth, A.	168
Christensen, C. K.	266	Lindholm, J.	243
Christensen, F.	109	Lunde, Inge	241, 243
Christensen, K. Nørregaard	274	Lundsteen, C.	1
Christensen, L. B.	259	Lyngbye, J.	105
Christensen, T. E.	291		
Cohn, J.	238	Madsen, P.	164
		Meinertz, H.	139
Dalby, R. J.	245	Mellemgaard, K.	105
Dige-Petersen, H.	58	Meyer, J.	96
Dyerberg, J.	202, 253	Milman, N.	291
Døssing, M.	55	Mondrup, M.	109
		Mortensen, L. S.	167
Ebbesen, P.	248	Mosbæk, N.	153
Egeblad, H.	159	Mosekilde, L.	262
Eitinger, L.	232	Munck, O.	278
Elbrønd, O.	262		
Elsborg, L.	205	Nadel, M.	278
Emmertsen, K.	262	Niebuhr-Jørgensen, U.	99
		Nielsen, H. E.	262
Fabricius, J.	155	Nielsen, H. R.	266
Folke, K.	159	Nielsen, S. Levin	278
Frederiksen, P. Büchler	48	Nielsen, T.	269
Færgemann, O.	139	Nyboe, J.	139
		Nyfors, A.	74
Gadeberg, O.	266		
Gudmundsson, S.	51	Obel, E. B.	61
Gyntelberg, F.	96		
		Paulev, P.-E.	55
Hansen, A. Tybjerg	139	Pedersen, J. Fog	159
Hansen, B. Fischer	113	Pedersen, N. Strandberg	291
Hansen, H. Hvid	262	Pedersen-Bjergaard, O.	142
Hansen, J. C.	259	Plum, C. Munk	207
Hansen, J. Fischer	105, 142, 148, 280		
Hansen, M.	96	Rasmussen, K.	153, 168
Hansen, P. Fritz	159	Rasmussen, O. V.	241, 243
